

# AMAZING

# We are Astrid and Claudia,

founders of onszelf. Our label is essentially known for our creatively designed wallpapers, but our collection includes stationery, posters and crockery as well. It all started when we met at the company we were both working for. Sharing the same philosophy, the two of us came with the idea to start a business cooperation, focusing on print design. Ever since our start in 2003, we have been enjoying the work we do. We have made several wallpaper collections with diverse themes, representing our distinctive, urban and playful style that will cheer up every home.

With love,

A few koi carp swim elegantly to the left of the sofa, small birds tweet in the trees to the right of the wardrobe. Like "Amazing"! In this new collection, the Amsterdam design studio onszelf has interpreted Japanese style in a very modern way. If you want to bring some Asian lifestyle into your home, you can look forward to a fine mix of urban shapes and traditional motifs.

The hand-drawn designs create a strong impression - whether in warm cognac, Japanese blue, deep yellow or grey-green. Even the large lotus leaves do not require any paint.

They thrive more magnificently than ever on the wall in black, white and grey. But a few random metallic highlights in light and dark gold also add sparkle. After all, a little glamour is always welcome.
