# *WELCOME HOME*

Because now you can simply bring fine English style into your home. Inspired by artist William Morris and the Arts and Crafts Movement, Salisbury incorporates everything that has class and conjures up a feel-good atmosphere. With the delicately drawn wallcoverings, the collection exudes lady-like elegance and lord-like charm.

The selection of lush flower and leaf motifs is enormous. Carefully arranged, the bouquets create a cosily cultivated flair – but always genteel and understated. Nevertheless, it can still be colourful: Golden yellow combines with antique rose, sage green combines with ink blue, together with timeless powdery tones and shades of grey.

Salisbury also features graphic designs in its repertoire. Combined with the matching plain solid colour wallcovering, a country cottage is transformed into a stylish London loft. **Let's try!**
