

 LIENZOS®

VALENTINA

With eye-catchingly confident, highly elegant textile wallcoverings in timelessly soft or vibrant colours, the Valentina collection gives any room a beautiful radiance.

And contrary to the consensus that you need a castle or at least a villa for this, we say: Surprise yourself at the multitude of available style options, regardless of the external facade of the house.

In this way, a modern minimalist apartment can be bestowed with warmth and homeliness and a stylistic contrast thanks to the textile material and its simple patterns.

Even browsing through the collection is a pleasure and instills the desire for change: Here you can find BIJOUX, a jewel-like pattern reminiscent of small fans, which features glitter and haptic effects. Or TILES with a baroque, quilted fabric look.

Whether framed in sweeping borders or emphasised with a studded Chesterfield look: classic embellishments in the collection such as ARAGON or CULTURE represent elegance and adventure, yet still bring cosiness.

The sophisticated tendrill motif MEMORIES adds a natural flair and creates a vibrant atmosphere.

Purely textile soild colours and stripes in different thread layouts complement the main patterns of this collection. Classic interior colours such as cotton white, sand, vanilla, make-up, warm grey and various shades of beige can be found here.

Fashionable colour combinations such as nougat brown with red, egg shell green with rust brown, plaster with slate grey and lime green with linen are also available.

The collection includes **60 textile wallcoverings**.
