

Factory Style

**Casual cool
or warm
cosiness**

**There's something for everyone in
the Factory Style collection.**

It draws inspiration from plaster, concrete, marble textures, as well as bricks, flower tendrils and rust. This collection combines natural textures with impressive industrial charm. Walls become real-life stories that evoke as much or as little factory flair as you want.

The current industrial look has set aside its coolness and displays a homely, personal and creative chic in its own special way. This new non-woven collection conjures up all this perfectly on the wall and in the room. No wonder that the unorthodox textures work anywhere – and can be perfectly combined with a wide range of colours, furniture and furnishing styles.

Shades of grey, brown, beige, blue and white have a chic yet cosy effect. It also features metallic effects that pick up on the theme brilliantly. **So get to the factory and your home will exude a trendy loft atmosphere.**

Details

- Non-woven wallcovering collection
- 10.05 x 1.06 m
- 37 wallcoverings
- Taste collection
