

Sophia

At the heart of the Sophia collection is the **Jacobean Flower**. Stylish sophistication and perfectly-shaped elegance are its first-class attributes. Hand-painted, the imaginative flower features detailed tendrils and leaves on simple and matte backgrounds in different colour combinations – multicoloured or tone-on-tone, with a playful sheen or kept entirely in sophisticated matte colours.

The other patterns in this collection also bring lightness and zest for life – **beautiful landscapes with palms and leaves, all-over prints with small leaves and a wonderful flower bouquet, as well as a graphic design with a 3D effect.**

Sophia offers magical plain colours with very fine stripes or with a textile look for those who prefer a more subtle look. **Whether in bold colours such as petrol, midnight blue, dark green or in juicy tones such as mint green, rose, beige – this collection sets unique accents in combination with shimmering lustre in gold and mother-of-pearl.**
