Summer vibes and good vibes

That's what the new '**Tropical House**' collection promises. Exotic plants, sophisticated graphics and Southern architecture are perfectly showcased with a successful combination of impressive and soft colours.

The tropical patio with numerous exotic plants, the masterful mix of extraordinary shapes, the artful tangled leaves or the clear lines with clever interplay of colours and gloss effects – **colourful and carefree, each individual pattern wallpaper effortlessly draws attention to itself.**

With colourful banana leaves, imaginative art prints, dreamy oases and inviting primeval forest towns, digital prints also bring life to the wall.

The matching single-coloured wallpapers in a wide range of colours leave nothing to be desired when it comes to interior design.

All the colours can be found here and create a harmonious image when cleverly combined – as well as a wide smile when looking at the face.
