# CURIOSITY

**Curiosity** – this collection name promises a lot and guarantees that you won't be bored. You can find almost anything here... apart from monotony. The non-woven wallpaper and murals impress with a certain tendency towards extraordinary things, but also with the lightness of simple sophistication.

**Non-woven wallcovering collection**

10,05 m length x 0,53 m wide

**Taste collection**

35 wallcoverings & 11 murals

Checked patterns with a fabric-like texture, fullness of leaves and flowers, the colourful world of birds, a wood look with vintage character, jungle landscapes, cork feeling with a metallic effect and block-colour designs, which are also eye-catching on their own due to their structure.

Thanks to the clever choice of colours, this collection has something for everyone. Need a little more? Pretty please – leaves in bold green combined with pink, turquoise and black draw everyone’s attention. So too does the interplay of different shades of purple, blue-green, red, black and shiny gold in one of the flower patterns.

But you can also find the perfect wall decoration for those who prefer a quieter look on the wall. White, beige, grey and brown in a wide range of shades bring a natural yet stylish home feeling. Every wallpaper, every mural either alone or combined – sometimes subtle and curious, sometimes strikingly unique – is always a successful eye-catcher.

The best part is that all of the wallpapers in this collection can be applied easily and seamlessly, thanks to a new, extremely hard-wearing and impact-resistant surface. Furthermore, any unevenness in the walls will become imperceptible.
